

My aim is simple - to provide you with a service that caters for your personal taste in art. To create an oil painting that captures something special; maybe a person, a place, a time, or even just fond memories. It's entirely up to you. We work together in producing your very own painting, bespoke for your living space. Please take a look at my gallery for some personal inspiration... Ever wanted to learn how to paint? Is there a budding artistic flair inside waiting to come out?! Why not take some lessons? I am available for private tuition for all age ranges locally. For more information, click on the Lessons tab.
