

## Description of Prints

---

The Limited Edition Prints are digitally photographed and printed on gloss card. All prints are signed and numbered; it cannot be guaranteed which number edition you'll receive.

Prints are mounted in either a white mount or an off white mount (if you have a preference, then please specify) and will be wrapped in polythene to protect them. The stated sizes of the prints are approximate sizes and include the 2" mount surround.

It is advised not to leave them in direct sunlight for best preservation.

If there is a painting in my portfolio you require as a print but I don't offer as a Limited Edition Print to buy, then please contact me and something can be arranged.
